Introduction

Upon the southwestern foothills of Mt. Kilimanjaro in Tanzania, the area known as Machame is the home to the Machame language and people. Proverbs were commonly used by ethnic Machame as an educational tool both before and immediately after the introduction of western education. Today they have faded from common use. The oral tradition in place for many centuries no longer passes down these culturally rich sayings; thus, it is apparent that before long the wealth of folk knowledge would vanish.

Since knowledge of the Machame language is waning, I felt obliged to make it possible for a wide array of audiences to benefit from these sayings. I have compiled proverbs in three of the languages which I speak fluently (Kimachame, Swahili, and English), and I hope that you will be able to read and understand them in one or two of the languages provided.

I took up writing this book mainly because I love history and did not want to see the traditional

Utangulizi

Kusini Magharibi chini ya mlima Kilimanjaro uliopo nchini Tanzania, kuna sehemu inayojulikana kwa karne nyingi kama Machame, ambako wanaishi Wamachame, wanaoongea lugha ya Kimachame. Kabla ya kuingia kwa elimu ya kisasa na muda mfupi uliofuata baadaye, methali zilikuwa zinatumiwa na Wamachame kama njia mojawapo ya kufundishia. Siku ya leo hazitumiki sana katika maisha ya kila siku. Kwa vile mila na desturi zilizokuwepo Machame kwa karne nyingi haziendelei kusimuliwa, inaonekana wazi kuwa haitachukua muda mrefu kabla maarifa ya sanaa hizi za jadi kusahaulika kabisa.

Kufifia kwa maarifa ya lugha ya Kimachame kumenilazimisha niandike hizi methali kwa njia ambayo itawafaidi watu wengi. Nimezikusanya na kuziandika methali katika lugha tatu tofauti ambazo naziongea kwa ufasaha (Kimachame, Kiswahili, na Kiingereza), na ninaamini kuwa utaweza kuzisoma na kuzielewa kwa lugha moja au nyingine, kati ya hizo zilizotumika.

Sababu kubwa iliyonifanya niandike hiki kitabu ni kwamba ninafurahia na kuijali historia na sikupenda kuona maarifa na

knowledge and wisdom held amongst the Machame people disappear from this earth. Most of the proverbs in this work came to me as I sat down with people in Machame and listened to them in casual conversation. Others I just remember hearing as I was growing up in Machame, and I can still recite them to this day.

Even though I have given my best to compile this collection, I am convinced that there is much more to be learned and written about the proverbs and the way of teaching of the Machame people. There is no way I could collect and write down all the aphorisms, stories, and riddles from Machame unless I visited each and every one of the villages and its people. Therefore, I urge you to consider this as just the starting point; let us keep the wheel spinning so that traditions and wisdom which existed among the Machame people continue to thrive. It is wise to capture these traditions on paper soon. If we don't act we will regret seeing that we have lost a big piece of the culture, customs, and traditions with which we were molded.

maadili yaliyokuwepo baina ya Wamachame yakitoweka duniani. Nyingi ya methali zilizoko kwenye hiki kitabu zimenijia wakati nikiwa kwenye mazungumzo na watu wa Wamachame. Nyingine ni kumbukumbu tu za methali nilizosikia wakati wa utotoni nilipokuwa Machame.

Ingawaje nimejitahidi kadiri ya uwezo wangu kuziweka hizi methali pamoja, bado ninaamini kuwa kuna mengi ya kujifunza na kuandikwa kuhusu methali na namna ya Wamachame ya kufundisha. Haiwezekani kabisa kwangu mimi kuandika misemo, hadithi na vitendawili vyote kutoka Machame isipokuwa kutembelea kila kijiji kimoja kimoja kilichoko Machame na watu wake. Kwa sababu hiyo, ninakusisitiza kuwa uone kuandika kwangu kama kianzio tu na wote kwa pamoja tuendelee kuifanya hii kazi ili mila na maadili yaliyokuwepo kati ya watu wa Machame yaendelee kuwa na ufanisi. Itakuwa busara kuhifadhi mafundisho haya kwenye karatasi leo na tusingoje mpaka kesho. Kama tukisubiri tutakuja kujuta kuona kuwa tumepoteza sehemu kubwa ya mila, desturi na utamaduni uliotufanya sisi tuwe kama tulivyo leo.

Acknowledgements

My greatest acknowledgement goes to the many elders I spoke with in Machame, Tanzania. Since proverbs are not used as a teaching tool anymore, it was hard to ask someone to come up with one—but sometimes the saying just wandered into the conversation. For me, being among the elders was almost like being in a classroom.

I owe my parents and my grandparents from both sides an unforgettable gratitude for allowing me to become the person I am. When I was growing up in Machame I learned some proverbs by visiting my grandparents. I still remember those proverbs today and I was able to use them in this book.

My husband Darwin was helpful in editing this book and designing the cover. My children, Subira and Anthony, helped in proofreading the English part. I am truly grateful for the family I have.

Shukurani

Shukurani zangu za dhati nazitoa kwa wazee wengi nilioongea nao kule Machame, Tanzania. Kwa vile misemo ya Kimachame haitumiki tena kama chombo cha kufundishia, haikuwa rahisi kwangu kumwuuliza mtu aniambie methali wakati wowote isipokuwa kwa bahati tu methali moja au mbili zijitokeze zenyewe kwenye mazungumzo. Kwangu binafsi kupata nafasi ya kuwa miongoni mwa wazee ilikuwa ni sawa na kuwa kwenye darasa la kisasa.

Imenipasa kuwashukuru wazazi wangu, bibi na babu zangu wa pande zote mbili kwa kunifanikisha niwe mtu niliye siku ya leo. Nilipokuwa nakulia Machame nilifanikiwa kujifunza baadhi ya methali za Kimachame wakati nikiwatembelea bibi na babu zangu. Hizo methali bado nazikumbuka mpaka siku ya leo na nimeweza kuzitumia katika hiki kitabu.

Mume wangu Darwin alikuwa ni msaada mkubwa katika kuhariri na kusanifu jalada la hiki kitabu. Watoto wangu, Subira na Anthony nao walisoma na kusahihisha sehemu ya Kiingereza. Kusema kweli nina bahati kuwa na familia kama yangu.

I would also like to thank all the people of Machame who have crossed my path, because I have learned from them in one way or another. These people really helped compile these proverbs. Dr. Sonja Darlington's love for literature was instrumental in reviewing this booklet.

I thank all my siblings who took some time even as we took care of my ailing older brother. So often we were able to share, among ourselves, some proverbs which came to us at the spur of the moment, as a way of dealing with our brother's illness. Working on these proverbs really did help us forget for a minute about what was to become of my brother's short life.

Pia ningependa kuwashukuru watu wote wa Machame ambao wamenisaidia na kunifundisha kwa njia moja au nyingine. Kwa kweli hao watu wamehusika sana kuweka pamoja hii misemo. Sitapenda kumsahau Dr. Sonja Darlington ambaye upendo wake wa fasihi umekuwa muhimu katika kupitia na kukifanyia marekebisho hiki kitabu.

Nawashukuru ndugu zangu wote waliochukua muda wakati tukimwuuguza kaka yetu mkubwa. Bila kukusudia kwa pamoja tuliweza kushirikishana misemo mingi ikiwa ni njia mojawapo ya kupambana na maradhi yaliyomkumba. Tulipokuwa tunatoleana methali ilitusaidia kusahau kwa muda mfupi kuhusu yaliyokuwa yatokee, kutokana na maisha mafupi aliyoishi kaka yetu.
